2. Presentation of the Progress Report by the previous Secretary

6. Any other matter, with the permission of the Chair

Kindly provide your valuable suggestions by **30.04.2026** on the various activities of the society over the next three years to increase its visibility and contribution to seed systems, including seed research, production, regulations, etc.

In this regard, you are kindly requested to make it convenient to attend the GBM of ISST and contribute your valuable insights and suggestions to improve society. Your presence and active participation will be greatly appreciated as we collectively deliberate on ISST's future direction and activities.
